3. AI Road Safety Directives & Strategic Interventions

- Priority Interceptor Deployment:** Peak non-compliance is concentrated between **18:00 - 20:30 IST** along major arterial intersections. Deploy mobile interceptor patrol units during these intervals.
- Two-Wheeler Helmet Focus:** Helmet non-compliance remains the leading contributor to life risk. Implement automated challans coupled with instant WhatsApp push notifications to encourage voluntary compliance.
- Habitual Offender Escrow:** 5 vehicles have accrued 3+ violations; automated DL suspension notices have been queued under Section 19 of the MV Act.
